

www.creaturesofhabitat.ca

To All Media,

We would like to extend a special invitation to attend this very dynamic closed event! (Earth Day April 22)

This opportunity will give you a chance to cover many stories about a community in action. It will reveal first-hand how 'Creatures of Habitat' is making a difference as a community event by doing its part to increase environmental consciousness where it matters most – our future generation. This event involves 700 Grade 6 students from School District #63, as well as over 100 volunteers: high school and university students, seniors, non-profit organizations and corporations. (See the website, Media Advisory and Fact Sheet for more information.)

We have arranged interview times at both the Mary Winspear Centre (indoor activities and skits) and at the various field-trip locations, where the outdoor activities are. (See times below.) There will be someone to greet you at all locations. Coffee and tea will be provided at the Mary Winspear Centre.

We would be honoured and grateful for you to be a part of this event. Please **RSVP** and indicate the location, time and any special requirements or questions you may have to: brittafrombach@gmail.com

Times to choose from:

Mary Winspear Centre - 2243 Beacon Ave. Sidney BC

Between 9:45am and 2:00pm

Performances run:	9:45-10:35	12:00-12:45
